DAY FIVE: INDIVIDUAL APPOINTMENTS ON CAMPUS – OCTOBER 27TH

Participants should consult the individual campus offices and inform their colleagues accordingly

WORKSHOP DESCRIPTIONS:

“THE SHADOW OF WORK” – How to implement staff mobility at your university. How do you motivate your colleagues to attend international staff weeks or language courses? How to find the right counterpart of a willing candidate to attend a “work shadowing?” How do you find out which agent or institution will serve your staff mobilities best? Can you trust a list of offerings if access is not safeguarded?

“LOST IN ADMINISTRATION” – The Curse of Data management in handling international mobilities worldwide. Harvesting data regarding international mobility can be excessively time consuming and tedious, but does it actually help anyone or is it simply another burden for your staff? Under which circumstances does additional data also yield additional value when it comes to international mobility?

For your convenience: a map of the participating campuses and estimated travel time
